Suncoast Developer's Guild, St. Petersburg, FL

Full Stack Development

April 2019- Current

- Building an APP that uses a RaspberryPi to run an ASP.NET application in Linux with an Image Recognition
- Built a Full Stack Site with React/.Net Core/SQL that maps military flights and allows users to keep a log of specific flights
- Built a Site that promotes personal LEGO projects and gives the user the ability to share blueprints.
- Designed a Crypto-Currency Price Index that updates with real-time data.
- Created a Calvin and Hobbes Encyclopedia displayed in an infinite animated CSS carousel.
- Built and styled a playable Black Jack game in JavaScript.
- Designed a SQL database that utilizes a C# API with EF Core as the ORM.
- Contributed docs and to the Suncoast Developer Handbook for current and future students.

Travel

May 2018-April 2019

- Traveled across the US to BC and West Coast.
- Volunteered at the Awassa Children Center in Ethiopia.

StoneWheel, Chicago IL

Inventory Management

April 2017-May 2018

- Utilized an in-house inventory management software for all stock, shipments, and transfers.
- Dispatched, tracked, and determined ETAs based on Mobile tracking.
- Handled all incoming and outgoing shipments and updated inventory software accordingly.
- Managed all employees and operations on weekends.
- Updated all systems weekly including mobile devices and in-house software.

Trek Freight Services, Chicago,IL

Business Development Specialist
